

# PUZZLE

## CHAPTER 12

LOVE

IS MORE THAN JUST

*Flowers and Chocolates*

I picked picture from one of our vacations that we took in black and white. I wanted to not only have a great picture but make the puzzle challenging. I then took the picture to our local photography chain store (if possible, please go to the independent store to help our local companies survive in these tough times). When she got the gift, we were able to spend some great quality time working together (and in very close proximity) and re-building a memory that was centered on love. For more romance, bring a bottle of wine (or similar) and finger food. This was a peaceful, fun, and loving moment in our relationship.

### **The idea:**

This one is simple but fun. Take one of your favorite pictures to a photography store and get them to put it into a puzzle. Once ready turn on some soft music, open a bottle of wine and enjoy working on this puzzle of the two of you, together.

### **Note:**

- 1) This gift will give you a nice evening together and will create a great memory.
- 2) If the photography company does not make puzzles you can always take her favorite picture of you two and get it put on a mouse pad or a coffee mug.

### **Ingredients:**

1 x picture of you two (or family)
